#### Job Summary

The position of IT Analyst is a 2<sup>nd</sup> Tier Desktop Support role. The ideal candidate will manage and delegate Installs, modify and makes repairs to personal computer hardware and software systems and provide technical advice and support to system users. The IT Analyst will be key to creating, updating, and analyzing data from our Sage ERP system, while being proficient in the creation of Crystal reports for the Executive team, and department heads. In the role of IT Analyst, you will supervise, train, and mentor the IT Assistant in his day to day 1<sup>st</sup> Tier Support role.

#### Duties and Responsibilities

The following are duties and responsibilities for the position. Other duties or functions may be performed as assigned.

- Develop and interpret departmental goals, policies, and procedures.
- Meet with department heads, managers, vendors, and technicians to assess computing needs and system requirements through data analytics.
- Identifies and procures the hardware and software needed to satisfy user requirements.
- Assists in the customization and adaptation of existing programs to meet users' requirements.
- Coordinates activities with network services and information systems groups.
- Provides updates, status and completion information to manager and/or users, via voicemail, e-mail, or in-person communication.
- Refers major hardware problems to service personnel for correction.
- Administers e-mail and anti-virus systems.
- Work with all departments to build and maintain Crystal reports, providing data.
- Establish and monitor scheduled maintenance tasks for the IT Assistant to perform.

#### Knowledge and Skill Requirements

To perform this job successfully, an individual should have the following knowledge and skills:

- Proficiency in Sage ERP, and Crystal Reports needed.
- Accomplished in MYSQL, and SQL Server.
- Experienced technology skills including computers, servers, phone systems (8x8), printers, and networks.
- Knowledge of principals and process for providing customer and personal services. Includes customer needs assessments and meeting quality standards.
- Use of logic and critical thinking to identify the strengths and weaknesses of alternative solutions, conclusions, or approaches to problems.
- Communicating effectively in writing as appropriate for the needs of the audience.

- Use of judgment and decision making in terms of considering relative costs and benefits of potential actions.
