POWERED BY INNOVATION. SECURED BY EXPERIENCE.

Retail theft is no longer an occasional concern — it has become an ongoing threat that impacts your profits, disrupts your operations, and creates constant pressure on your team.

Don't worry, you are **NOT** alone.

As a trusted leader in the industry with a continued commitment to advancing retail security, we gathered this data to raise awareness of the real challenges theft and shrink pose for businesses like yours. **Here are seven alarming statistics every retailer should know** — along with firsthand insight that we gathered from our own experiences.

Let's get started.

\$150 BILLION

Retail theft could exceed **\$150 billion** annually by 2026.

...And How To Avoid Becoming A Statistic?

Stores that switched to **VPG** solutions had an **82%** reduction in theft and **79%** less inventory shrink.

Following the July 2019 launch of our Titan project, LA stores reduced theft by **95%** and were **removed from the top shrink list for a major carrier** in 2020 after adopting VPG security.

So what's happened since then...

We've taken our flagship TITAN product and expanded it beyond phones to secure watches, laptops, and now even deliver an untethered experience for customers.

Experience the Titan family for yourself. To view, open the camera on your smartphone and scan the QR code, or click the QR code.

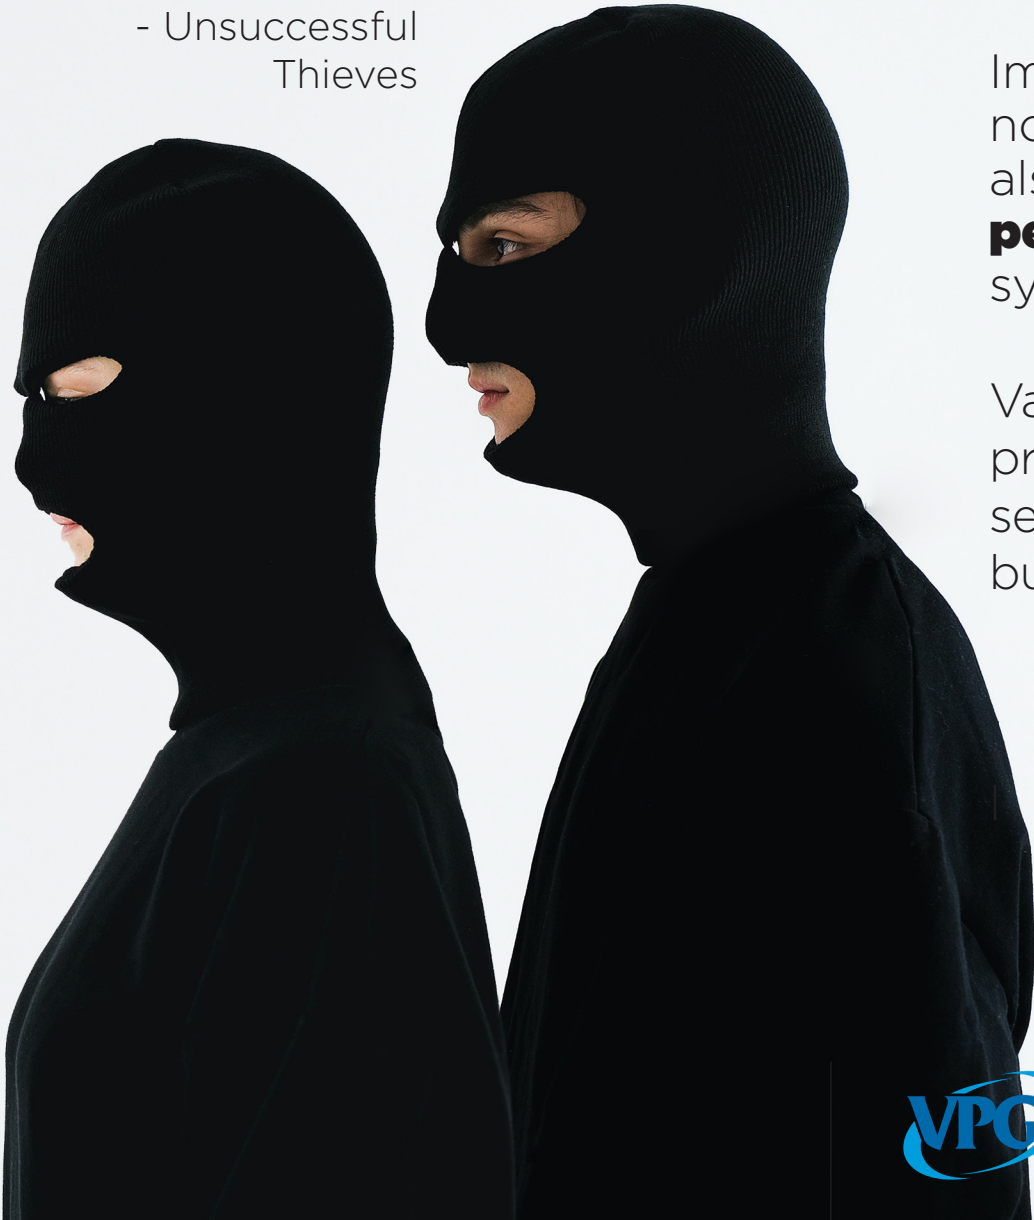

"Crap...they
have VPG."

“Let’s go.
They’re protected
by VPG.”

- Unsuccessful

In Conclusion...

Unfortunately, the data points to a difficult road ahead for retailers when it comes to shrink and loss prevention.

Imagine instead a tailored solution that not only **protects** your **products**, but also helps **increase sales** and **provides personalized support** to keep your systems running seamlessly.
